Dear brethren:

We received your letter written by brother Hoggatt dated June 4, 1974, and appreciated hearing from you. We have finally completed tallying the information we obtained in our research in India. The report has been printed and we are sending you a copy under a separate cover. This does not mean that we have completed all the adjustments to the programs in India that need to be done, but we are making progress.

I am afraid that some of our articles and letters have been a detriment to our financial aid for the work in India.

Many individuals and churches have cut off or reduced their contributions to the work and we are not at the stage to where we can manage to do the work that needs to be done without a continuance of help from brethren here in the States. Most of the men that have been cut off of support were supported by American churches and those funds were naturally discontinued. However, we are in the midst of a retraining program for good men that we feel we can salvage. We also are having a great deal of success with a congregational stabilization program. These plus the Bible correspondence courses and tract printing still demands a lot of money and so we need all the funds we can get to keep from curtailing these efforts.

We are thankful that you have been able to take over the full support of brother Herron. If in addition to this you could challenge the brethren there to continue your support to the work in India as well, we would be very grateful. Remember there is still a population in India in excess of 600,000,000 people. We have just begun to work.

Thank you for your support and your encouragement.

In Christ,

Tex Williams
