

arrived Sept 3

August 5, 1982

Dear Dean, Thelma [+ who ever happens to be there this week (huh!)]

Received your letter yesterday. Seems an "mist" just that you are now providing meals too!

Due to the uncertainty of Robert's leave following his recovery, I would like to set the meeting date for October 31 - November 3, 1982. I look for him from about the 1st week of Oct. It will be attached to the program of the fleet stationed in Japan for two years. It is also a communication ship. Robert is going to a technical school to be a full technician.

He said he graduated in the top 10% of his class from East Comp. I guess I told you he was at Oxnard, Fla. He is on Treasure Island (San Francisco) for school. The temperature here is about 60 + 52. He earned an extra stripe by recruiting before he went into flight. He said he likes it a lot better now that he is out of base.

If you have any particular topics (5) you wish discussed, please let me know. I met, the people from the "dist. gen" program and they hit someone!

If you would like to have any extra business in the morning, we could work out something suitable for it to.

I will plan to drive up on
Saturday & back home on Thursday.
I can't say yet if June will come
or not; it depends on how she
feels, and the situation with
Robert's leave too.

I appreciate your invitation
to hold the meeting.

I hope you have a great Sunday
at "homecoming." We really
enjoyed being with you last year.

Love,
Carl
