To Keenagers

Dear

It is with mixed emotions that I write this message to you. Thelma was admitted to the McCray Hospital last Friday from stress related problems. Her doctor's advise is that she must cut back on some of her activities. One of these is the Keenager program. We both have enjoyed working with our Keenagers, however for now it would seem best, for Thelma, not to have that responsibility weighing on her. We hope that you understand. Perhaps the program can be started again in time to come, but for now we will discontinue meeting.

May the Lord bless you all. We love you and if we can be of help to you in some way, please call on us.

In Christian love,

Dean and Thelma Hoggatt
